

# Signs of Spring

The temperature starts to get warmer.

The grass start to grow.

The weather in Spring can be windy, rainy and also sunny!

daffodil

crocus

hyacinth

tulip

primrose

Spring flowers.

pansy

snowdrop

daisy

bluebells

Blossom on trees

Buds  
(horse chestnut bud - conker tree)

Catkins – seed heads with no petals. Ready to be pollinated by the wind.

Willow - black protective caps.

Hazel- hang like lamb's tails to catch the wind.

## Frogspawn

in lakes and on ponds.

## Butterfly and moth eggs

under leaves.

Birds - birds start to sing.  
They are trying to find a mate.

This rook is finding materials to make a nest.

A blackbird's nest.

Long eared owls move into old nests already built by bigger birds.

Ducklings hatch between  
March and July.

Birds like the Chiffchaff come back to  
the UK as the weather is getting warmer  
(March)

In March Spring flowers attract the first bumblebees.

In Spring lambs are born.
