

HOME LEARNING FRENCH ACTIVITY. WEEK 5, BEG. 20TH APRIL 2020

Using paints, colouring pencils, felt tips etc..., **create a colour chart** and label each colour in French.

Then **give at least 3 examples** of how two colours mixed together create a brand new one (still in French!). eg: "bleu + jaune = vert"[blue+yellow=green]. Use the picture below if you are stuck!

Useful words.

.....**foncé** = dark (foncé goes after the colour name)

Eg **bleu foncé** = dark blue

.....**clair** = light(clair goes after the colour name)

Eg **vert clair** = light green
