## PRACTICE

## EXPLORE

Find a safe space. How many different animals do you know that jump, hop or leap?

Find 10 small soft objects You can use your toys to help you!

Jump OVER them. Jump AROUND them. Jump BEHIND them. Jump IN FRONT of them.

Tell your family which jumps you like best. Can you say why?

## DEVELOP

Time to work on landing without any wobbles!

Put down a small square of paper - make sure it wont slip!

Jump ONTO your paper. Jump OFF your paper.

Top Tips for wobble free landings
Land feet apart Bend your knees Stretch arms out in front Keep your head up Look straight ahead.
about kangaroos?

* They can hop quickly on 2 legs, and they can walk slowly on 4 legs.
* They can't walk backwards.
*They can swim!
Can you find out where kangaroos live and any other fun facts about them?
Understanding the World
Did you know this

Make sure you have enough room to complete the tasks!

Parent's Tip!
Allow your child to explore lots of different ways of jumping, hoping and leaping.
Encourage them to be creative!

@KESSPB Where can I go to take part in more athletics? @awhitehousePE @SarahLayPE

## Communication and Language

Find out how to play 'Simon Says'
Play this with your family using the animals we thought about when you explored your jumping.
Simon Says "jump like a frog" Simon Says "hop Iike a grasshopper"

What other 'Simon Says' can you come up with together?
music to make this more
fun?

## PRACTICE

Use your objects to make a V shape

## EXPLORE

Find about 10 small objects - balls of screwed up paper, rolled up socks, or small soft toys will do. Spread them out on the floor/ground. Put some in pairs and some on their own.

## Bright ideas:

- Jump over the paired objects with 2 feet, and the single objects on one foot.
- Find as many different ways of jumping over your objects on 2
feet or 1 foot.
- Can you create a route or
circuit for your jumping?
Add in doing this to music
for some extra fun!

Start at the narrow end and jump across from one side to the other. Try using 1 foot and 2 foot jumps first. Then just jump 2 feet to 2 feet.

See how far along you can jump across your ' V '.

How did it feel when you jumped further each time you practiced this?

Maths Challenge!
Measure the distance of your longest jump.
Can you write that as metres
(m), centimetres (cm) and millimetres ( mm )?

Which is the best unit of measure to use for measuring standing long jump? Why do you think this?

Standing Long Jump was last in the Olympic Games in 1912

* Can you find out who won the Gold medal and how far they jumped?
* Can you find out who the World Record holder is now?
* What other sport does this person play?
* What is the current World Record and when was it achieved?
@KESSPB
Where can I go to take part in more athletics?
@awhitehousePE @SarahLayPE

Use these Top Tips to help you jump further:

* Start with your knees bent. * Swing your arms and reach forwards as you jump.
EXPLODE up and forwards
Wusing your legs and toes to push off.

Can you create an instructions poster for practicing and improving a standing long jump?

Give your instructions to someone in your family and ask them to use them to improve their technique.

## Parent's Tip!

Start with a narrow 'V' and gradually increase it as your child improves.

Make sure you have enough
room to complete the tasks!

Mark out a start line. Swing your arms and jump as far as you can from a standing start, landing on two feet measure your distance with an object or a tape measure if you have one.

## EXPLORE

Find a small space. How many different ways can you find to jump?

## Bright ideas:

- Jump as high as you can. Jump from two feet to two feet. Jump from one foot to two feet. Jump from one foot to the other foot.
- Jump in different directions. Jump forwards and backwards.

Can you make your jump as
long as possible?

Where can I go to take part in more athletics?
@awhitehousePE @SarahLayPE

Once you have completed a jump from a standing start, take 3 steps as a run up before the start line and measure your jump. Work as a family team to measure each others jumps.

Maths Challenge!
The length of the sand pit used in long jump is 9 m . The width is 2 m . What is the overall area of the sand pit?

If the depth of the pit is 1.5 m , what volume of sand would you need to fill it?

Top tip - make sure you add the correct units of measurement to your answer!

Can you create a training programme to improve your long jump distance? What types of practices could you use to improve your performance?
Imagine that you have just won the gold medal at the Olympic Games for long jump. Create a
diary extract from the day
describing your experience.
Top tip - try to use similes and metaphors in your diary entry to improve your work.

Muscle Challenge:
How many muscles can you name that are important in long jump?

What type of training could you do to improve the strength of these muscles?

Parent's Tip!
Use your arms to get more momentum with each jump For more of a challenge, use a small run up.

Make sure you have enough room to complete the tasks!

## PRACTICE

Mark out a start line. Hop, step and jump and measure the distance you achieve from a standing start with an object or a tape measure.

Once you have completed a jump from a standing start, take 3 steps as a run up before the start line and measure your jump.

How does beating your personal best make you feel? How can you remain positive if you don't beat your personal best?

Can you develop your own practice to help others improve their triple jump?
What are the key things they
will need to remember to become an expert?

The next Olympic Games will be in Tokyo, Japan in 2021.
Produce a leaflet advertising the Games and what the host city has to offer, persuading people to visit.

Try and use hyperbole, emotive language and rhetorical questions!
Can you define each of the following words related to jumping in athletics?

> TRAJECTORY
> MOMENTUM
> APPROACH
> HITCH KICK
> LOAD
> LEVER

Create a paragraph to explain the technique in triple jump using the key words above.
