

# A REALLY FUN WAY TO TEACH KIDS HOW TO TELL TIME!

Two yellow analog clocks are shown on a wooden surface. The clock on the left is a 'CHAMEL' brand clock with a red hour hand and a blue minute hand. The clock on the right is a 'LEARNING RESOURCES' brand clock with a red hour hand and a blue minute hand. A small white die is placed on the wooden surface between the two clocks. A sign with a list of instructions is placed on the wooden surface to the right of the die.

1 = move 5 min.  
2 = move 10 min.  
3 = move 5 min.  
4 = move 15 min.  
5 = move 20 min.  
6 = move 10 min.
