Google Classroom – Accessing your Year Group Resources
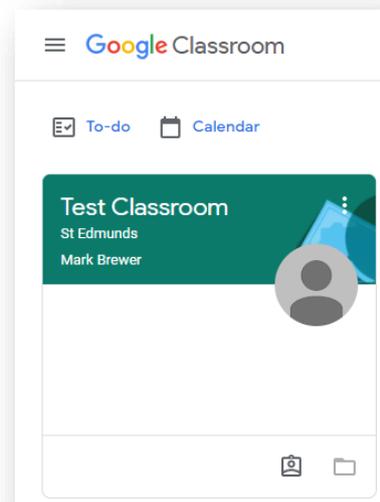

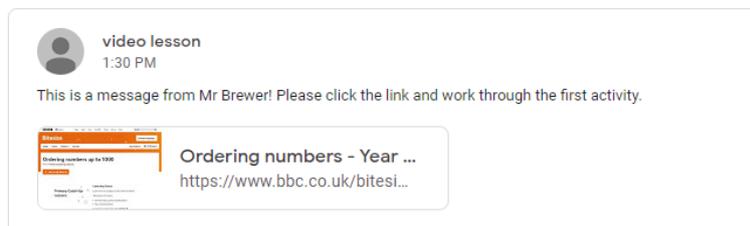

The school will have provided you with an email account and password to be used with Google Classrooms.

Go to https://classroom.google.com

You will need to Sign in with the account the school provided you with. If you are already logged in with your own account you will need to sign out of your personal account and login with the school account.
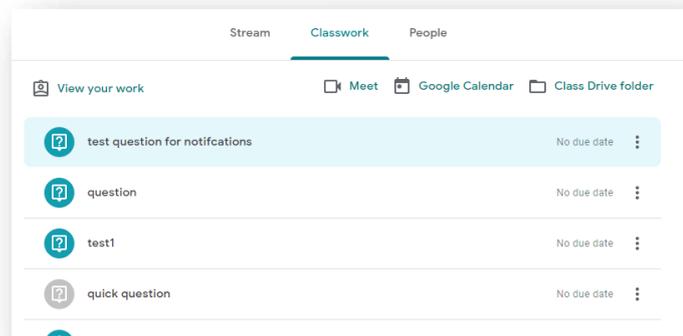

When you log in you will be presented with any Classrooms you have been joined to e.g.:

Click on the classroom to enter. When in the classroom there will be announcements on the first page e.g. below

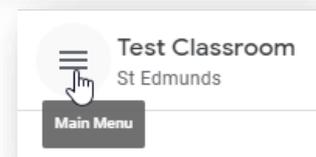

Announcements can include activities or videos, however if your teacher wants you to submit work or answers to show you have completed the task, activities may be set as 'Classwork' rather than a simple announcement.

At the top of the screen there are 3 tabs, if you go to 'Classwork' this will take you to activities that need to be completed and submitted.

You can also find activities that have been set by using the 3 lines in the top left and going to your To Do list

In an assignment in classwork, you may be asked to upload a photo or document. If this is the case you can do so with the 'Add or Create' button. Then you can 'Turn In' the work once you are happy you've uploaded or completed the task
