

Year 3 Money

National Curriculum Aims

- add and subtract amounts of money to give change, using both £ and p in practical contexts.

Key Vocabulary

change	The amount of money you are given back if you pay more than the price of an item.
less	If one quantity is smaller than the second quantity.
penny (p)	A penny is a unit of money in the UK. There are 100 pence in one pound.
pounds (£)	A pound is a unit of money in the UK. 100 pence is equal to £1.
total	The total is the result when you add together a group of numbers.
bought	When you got something after paying for it.
cost	The payment of something before it is bought.
cheap	Something low in price.
sold	When something is bought, it has been sold.

Home Learning

- When you're walking around the shops, add items together to find the cost of them.
- If you are buying an item in a shop, can you work out the change you will receive?

Core Knowledge and Representations

British Money Coins and Notes

How much money is in each jar?

Column Addition

$$\begin{array}{r}
 789 \\
 + 642 \\
 \hline
 1431 \\
 \hline
 \end{array}$$

Answer: 1431

Column Subtraction

$$\begin{array}{r}
 8 \quad 12 \quad 1 \\
 9 \quad 3 \quad 2 \\
 - 4 \quad 5 \quad 7 \\
 \hline
 4 \quad 7 \quad 5 \\
 \hline
 \end{array}$$

Finding change.

If I spent £3.87 in a shop, how much change would I get from a £5.00 note?
