## Things you already know:

- Be familiar with commenting from our Y4 wiki work.
- Know how the audience of published online content will affect what is written.

Knowledge you will gain:

- To know what a blog is, how it works and how the style of writing is different from other formats the children might be familiar with.
- To know how to create a sequence of planned blog posts that incorporate their own ideas, using both text, images and video.
- Understand that embed codes allow you to create a 'window' through to another website such as youtube in order to show videos on a different web page.
- To know about different styles of blogging such as vlogging and live blogging.
- To know how to sensibly and sensitively comment on other people's blog posts.

Blog author

Layout options button e.g. 2 columns etc.

Rich text area for blog content

Plus to add content of a different type e.g. links to social media or embed youtube.

We are Bloggers

Vocabulary

Blog: A regularly updated webpage, written in an informal style.

Comments: the area to <u>instantly</u> express your own view in a responsible way underneath someone else's blog post.

Embed: Often using an embed code to create a 'window' through to another website e.g. YouTube clips remain on the youtube site, but are viewable on other websites as they are embedded.

Live blogging: Blogging about a live event is it happens such as a music concert or sporting event.

Vlogging: A video blog.

Specific skills/understanding

Understanding the format and styles blogs are written in. Understand how to get the embed code from other websites such as YouTube or google maps.

Ongoing skill set

Copying and pasting using keyboard shortcuts. Right click for spell checking. Working with multiple tabs.
